Master, Studies of Science and Technology ITESM

2015 – 2017 | Mexico

- Graduated with Distinction

Bachelor of Science, Information Technologies and Business ITESM

2010 – 2014 | Mexico

- Graduated with Distinction
- With one year exchange at Czech Technical University in Prague (2013)

👤 PROFILE

QA Engineer with 5+ years of experience in **Web, Functional, API, and Integration** testing, specializing in **Test Automation, CI/CD Integration, and Agile Workflows**. Strong background in **Web Development** with experience in building and testing full-stack applications. Proven **solution-oriented** mindset, strong **commitment**, and **teamwork** skills.

💼 PROFESSIONAL EXPERIENCE

Middle QA Engineer

Xsolla Canada

01/2026 – Present | Montreal, Canada

- Designed and executed comprehensive test strategies covering Functional, Smoke, Regression, E2E, API, Positive, Negative, Edge, and Alternative testing scenarios to ensure full product coverage.
- Authored and maintained structured test cases in Qase, managing test run execution and delivering detailed bug reports with reproducible steps.
- Monitored application logs and system behavior using Datadog to identify anomalies and support root cause analysis during testing cycles.
- Conducted thorough API testing using Postman, validating endpoint behavior, response integrity, and error handling across multiple environments.
- Performed database validation and data integrity checks using MySQL to verify backend logic and ensure consistency between data layers.
- Integrated test pipelines within GitLab CI/CD workflows, enabling continuous quality delivery throughout the development process.

LQA Team Lead

GlobalStep Technologies

05/2021 – 01/2026 | Montreal, Canada

- Managed video game localization QA projects across diverse platforms (Web, Android/iOS, VR, and Consoles), led multiple teams of multilingual QA testers, and collaborated closely with clients and developers to validate issues in pre-release builds.
- Responsible for the test planning, test case design, and test execution to ensure product quality.
- Improved workflow efficiency by standardizing test documentation and optimizing test execution processes across multiple teams.
- Worked with Agile/Scrum methodologies and CI/CD pipelines to improve QA testing efficiency and accelerate release cycles.

LQA Senior Tester - 05/2021 - 03/2024

- Tested in multiple projects with different characteristics and scopes.
- Performed and implemented the best QA testing practices.

Websites Admin

Concordia University, Fine Arts

05/2021 – 05/2023 | Montreal, Canada

- Development and management of the Faculty of Fine Arts websites.
- WordPress & database host administrator. Worked with HTML, CSS, JavaScript, SQL, and PHP.

Business Intelligence Consultant

AN Global

08/2017 – 06/2019 | Mexico City, Mexico

- Developed dashboards and reports in MicroStrategy and Power BI for multiple clients.
- Performed data testing and integrity verification while managing SQL databases to support data analytics.
